Resistance To Chemicals – Polysafe Wood FX

Date : Feb 2008

Resistance to chemicals is tested over a 24 hour contact period at room temperature, followed by rinsing with cold water. Polyflor Ltd believe this simulates the worst situation where spillages are not removed immediately and are only cleaned by normal maintenance.

U - Unstained A - Slight stain B - Moderate stain C - Heavy stain
E - Appearance as above plus slight surface disturbance

	Shade
